

REVIEW COMMENTS

First of all ,Thank You for the making the website its incredible and many thanks to you.I appreciate.
A few changes;

- The Big Font in italics especially My name can change to the font in the photo below especially for the big and bold .
- ◆ Also there should be like a tinge of the colours sage and mauve ...
- ◆ Probably we can have this last tab look like this .Changing this part to be colour Mauve .The font in italics can change to the font type in **“Beauty finds you when you stay close.”**
- ◆ So I love the layout of The monument .Lets maintain that but probably bring in the form of colour as displayed in the “statement” design Like how the font colour has been played around .Also making the tab on the newsletter to be as is in the statement .
- ◆ **Its basically bringing a tinge of colour in the wordings ,lines tabs but its shouldn't be conspicuous especially Mauve.The green can be replaces with Mauve .But both colours can be played around with to make it appealing.**
